

Startup Opportunity Research Report

From Problem Hypothesis to Launch-Ready Evidence

Validated Problem Statement:

Freelance web designers struggle to manage client revision cycles without automated scope paywalls.

Target Customer ICP: Freelance designers and boutique agencies

Autonomous Research Verdict:

1. Executive Summary & Evidence Validation (Agent 1)

Daily frequency, severity 8/10, strong WTP.

2. Competitive Landscape & Top 10 Solutions (Agent 2)

Bonsai, HoneyBook, MarkUp.io, DIY Spreadsheets.

3. Forensic Competitor Deep-Dive Profiles (Agent 3)

Bonsai lacks revision counters. MarkUp has zero billing links.

4. Strategic Gap Analysis & Feature Matrix (Agent 4)

Gap 1: Automated Smart Scope Paywall (Score: 8.5/10).

5. Exhaustive Gap Verification (Agent 5)

Confirmed Gap: Nothing exists with Stripe milestone paywalls.

6. Investor-Ready Diligence Memo & Roadmap (Agent 6)

ScopeLock: The automated client revision gatekeeper.

7. Production GitHub README & Launch Kit (Agent 7)

```
# ScopeLock
> Stop scope creep with automated change-order paywalls.
```
